

Engineering & Technology

Over 35 years
shaping the future

Grupo Eacom

01

Grupo Eacom is a group of technology companies with more than **35 years of experience**, specialized in the development and integration of **advanced solutions**.

With a team of over 500 highly qualified professionals, we approach projects comprehensively, covering the entire value chain: consulting, design, implementation, operation, and maintenance of critical infrastructures.

We are committed to **continuous innovation**, applying disruptive technologies to optimize processes, improve efficiency, and ensure maximum reliability in every solution. Our **national and international presence** allows us to adapt to complex and demanding environments, always meeting the highest technological and regulatory standards.

Committed to digital **transformation and intelligent connectivity**, we develop resilient and efficient infrastructures by integrating next-generation systems that enhance our clients' competitiveness in an interconnected world. In addition, our commitment to **sustainability and social responsibility** drives us to design technologically advanced solutions that are environmentally respectful, generating a positive impact on society.

At Grupo Eacom, we believe in the power of innovation to shape the future, and we work to be pioneers in developing the solutions that will define tomorrow.

Purpose, future & values

02

Customer Commitment

The customer is at the center of everything we do. We are committed to understanding clients' **needs and expectations** and to delivering solutions that exceed them in terms of **quality, service, and added value**.

Integrity and Business Ethics

EACOM Group adheres to the **highest standards** of integrity and ethics in all business interactions. We act **transparently, honestly, and responsibly** in our relationships with customers, suppliers, employees, and other stakeholders.

Collaboration and Teamwork

The group values teamwork and collaboration among employees and business partners. We foster an **inclusive and respectful** work environment that encourages the exchange of **ideas and collaboration** to find the best solutions for our clients.

Continuous Improvement

We are committed to continuous improvement across all areas of our business—constantly **seeking ways to optimize** processes, **enhance service quality**, and develop new **capabilities** to meet the evolving needs of the market and our customers.

Our Certifications

03

ISO 9001 Quality Management

Ensures that our processes comply with the highest **quality management standards**, guaranteeing efficiency, continuous improvement, and customer satisfaction across all our services and technological solutions.

Private Security Company Approved by the Ministry

Official recognition certifying our capacity to operate in the field of private security, in compliance with regulatory requirements and ensuring a high level of professionalism and reliability in our security solutions.

ISO 14001 Environmental Management

Certifies our **commitment to sustainability** and respect for the environment, ensuring that our operations minimize environmental impact and promote responsible practices in the use of resources.

ISO 27001*

Strengthens our commitment to information security by ensuring the **confidentiality, integrity, and availability of data** through effective controls and proactive management of technological risks.

ENS Medium Level – National Security Framework

Certifies that we meet the requirements of the **National Security Framework**, ensuring **information protection and cybersecurity** in our systems, aligned with official standards.

ISO 45001*

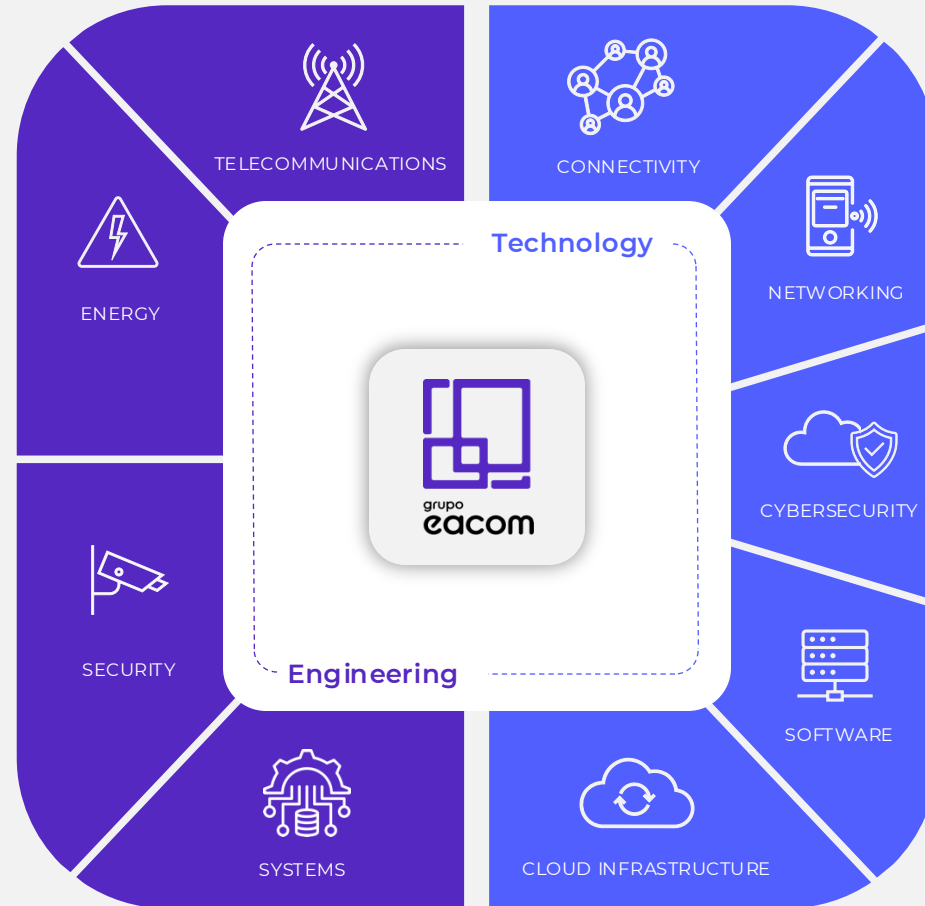

Certifies our commitment to workplace health and safety, ensuring **safe working environments, risk prevention, and the physical and mental well-being** of all our professionals.

* The ISO 27001 and 45001 certifications are currently being processed.
